PROFESSIONAL EXPERIENCE

Lead UI Developer
Catalysis • Seattle, WA • 2021-2025

- Led front-end development efforts for multiple Microsoft platforms, including Microsoft Developer, Microsoft Learn and Microsoft Azure.
- Designed and implemented accessibility-first UI systems and reusable component libraries across multiple products.
- Developed generative AI strategies and agents to streamline production workflows for cross-functional design, development, and data teams.

Director, Product & Interactive Design
Planet Codex • Los Angeles, CA • 2013-2020

- Partnered with clients to define brand identity, digital strategy, and web-based business direction across multiple industries.

- Established visual brand guidelines, design systems, and reusable component libraries while managing functional and non-functional requirements for web and product initiatives.
- Designed and developed marketing websites, React Native applications, and a 3D web application for customizing and purchasing high-end 3D-printed products.

Director of Web Development
Perr&Knight • Los Angeles, CA • 2011-2013

- Oversaw the design and development of web applications used by major U.S. insurance carriers, supporting actuarial, underwriting, and compliance processes.
- Defined functional and non-functional requirements and collaborated with subject-matter experts to digitize and optimize complex workflows.
- Managed vendor relationships, SaaS platform implementations, and digital marketing infrastructure.

FEATURED WORK

Microsoft Developer Home Page

- Led front-end engineering for the Microsoft Developer homepage, building a component architecture to ensure design system alignment, accessibility compliance, and performance optimization.

VOLUNTEER WORK

Group Leader & Head Mentor
PNW Developer Network • Seattle, WA • 2020 - 2023

- Led weekly virtual networking sessions for web developers, mentored junior devs and taught front-end dev and UI design fundamentals.

DEI Communications Lead
Catalysis • Seattle, WA • 2023 - 2025

- Drafted, designed and distributed intra-company communications covering DEI research topics, cultural celebrations and current events.
